- According to market analyses by Woods Mackenzie, global energy consultant, Demand for natural gas pipeline transportation capacity in the Southeast and Mid-Atlantic Regions support the Project;
- Natural gas is the preferred fuel source of major manufacturers;
- Once the Project is operational, it will generate approximately seven million dollars (\$7,000,000) of new annual ad valorem tax revenue for Virginia localities along the route;

- Once operational, the Project will generate up to one million and two hundred thousand dollars (\$1,200,000) of new ad valorem taxes (property taxes) in Pittsylvania County;
- The federal government has credited the increased use of natural gas and the declining use of coal as a major factor in the reduction in carbon emissions in the United States by more than eleven percent (11%) between 2008 and 2017; and

Pittsylvania County Administrator

**RE: Berry Hill Connector Road Project - Disposition of Route 1055 (Bachelor Hall Farm Road)**

Dear Mr. Smitherman:

Recently, a Virtual Design Public Hearing was held for the above referenced project on Tuesday, August 4, 2020 between 4:00 pm and 6:00 pm via a Webex meeting.

Thirty six (36) citizens attended the Virtual Design Public Hearing. A Comment Sheet was distributed along with the Public Hearing Brochure via mail as well as posted online, and comments were returned either by e-mail, online, or via the mail. Nine (9) comments were received by letter, comment sheet or via email and no oral comments were given at the Virtual Design Public Hearing. Of the nine (9) comments returned, three (3) supported the project, three (3) supported the project with conditions, two (2) were in opposition to the project and one (1) was non-committal.

Similar to the Location Public Hearing we received several comments related to the disposition of Route 1055 Bachelor Hall Farm Road. A majority of the comments received were related to Bachelor Hall Farm Road. Below is a brief summary of the comments received:

- 501 Bachelor Hall Farm Road – The only positive thing to come out of the 311 Connector Road project regarding the privacy of my property and its future market value is that there will be no connection to the connector road. This will preserve some of the character of the neighborhood that I and my neighbors, paid a premium for when we purchased our homes and properties. I am therefore, very much in favor of the cul-de-sac design for Route 1055 (Bachelor Hall Farm Road.). This comment was echoed by three other property owners along Bachelor Hall Farm Road.
- 224 Bachelor Hall Farm Road – Bachelor Hall Farm Road needs to intersect and cut-through the corridor. This will improve traffic flow and emergency vehicle access.
- 695 Bachelor Hall Farm Road - The current design has this roadway coming within 200 feet of my home without granting me access to it. Originally, the plan was to have a junction with Bachelor Hall Farm Road. This would have allowed direct access to this roadway from my property. The current plan will require that I drive 2-5 miles to access a road that is 200 feet from my property.

This makes not practical sense. I would like to know why the NEW plan is to construct a cul-de-sac at the end of Bachelor Hall Farm Road.

The Location Public Hearing was held for the Route 311 Connector Road project on Thursday, June 6, 2019 between 4:00 pm and 6:00 pm at Brosville Elementary School Gymnasium, 195 Bulldog Lane Danville, VA 24541. The Public Hearing utilized an open forum with VDOT and consultant staff.

Fifty-four (54) citizens attended the Location Public Hearing. A Comment Sheet was distributed along with the Public Hearing Brochure and comments were returned either at the meeting or by e-mail. Thirty (30) comments were received by letter, comment sheet or via email and no oral comments were given at the Public Hearing. Of the thirty (30) comments returned, nine (9) supported the project, five (5) supported the project with conditions, thirteen (13) were in opposition to the project and three (3) were non-committal.

During the Location Public Hearing, there we received several comments that were in support of the project provided Bachelor Hall Farm Road maintained a dead end road as well as non-support for the project because the potential Bachelor Hall Farm Road connection to the proposed Connector Road will affect the property values and increase through traffic along Bachelor Hall Farm Road. It is for these reasons we developed a design that proposed a cul-de-sac at the end of Route 1055 (Bachelor Hall Farm Road). Below is brief summary of the comments received during the June 6, 2019 Route 311 Connector Road Location Public Hearing related to Bachelor Hall Farm Road.

- 501 Bachelor Hall Farm Road - I do not want the Connector Road to in any way connect to Bachelor Hall Farm Road or any other road. I am not fine with this project affecting my property or property values. I recently bought this house and have a lot of money invested in it.
- 625 Bachelor Hall Farm Road - I developed my property and invested a lot of money for a private home that could easily be ruined I want my road to Dead end so this project will actually improve our property this would stop cars from flying down our road. I do not want access to the new road and I don't want others to use our road as a short cut. I maybe support the project if you dead end our road.
- 255 Bachelor Hall Farm Rd stated - I support the connector road project but only if Bachelor Hall Farm Road remains dead end.
- 225 Bachelor Hall Farm Road stated – To maintain the peacefulness of this neighborhood, we do not want to see an increase in the traffic on Bachelor Hall Farm Rd. Our preference would be that the Connector Road does not intersect with Bachelor Hall Farm Road. I support the projected as long as Bachelor Hall Farm Road is a dead end.
- 421 Bachelor Hall Farm Rd. – I do not wish to have our road (SR 1055) to be connected to the proposed connector road. It is our wish, as is most of our neighbors, to leave this road as a dead end road to maintain.
- 375 Bachelor Hall Farm Road – I do support this project. Please leave the Bachelor Hall Farm Road as is. We bought and built in the area to get away from congestion and heavy traffic. We want to keep our quiet, peaceful neighborhood.
- Give Bachelor's Hall Fire Department better response time to Oak Ridge Farms subdivision. Prevent drive through traffic thru Oak Ridge Farms subdivision. Recommendation to close entrance to subdivision at proposed intersection of Oak Ridge Road at current interchange with

bypass. Propose a new entrance at proposed intersection at Bachelor Hall Farm Road and the connector road.

Bachelor Hall Farm Road is a secondary rural local roadway that has approximately 18 ft. or less of pavement that is approximately 0.65 mi. in length that dead ends. The average daily traffic as of 2018 is 115 vehicles per day.

Given the mixed comments received regarding the disposition of Route 1055 (Bachelor Hall Farm Road) we are requesting a recommendation and resolution on behalf of Pittsylvania County Board stating their position on the disposition of Bachelor Hall Farm Road as it relates to the proposed connector road.

Additional information regarding the Route 311 Connector Road project can be found at the project's website: <http://www.virginiadot.org/projects/lynchburg/route-311.asp>.

For the past several years, the County has been disposing of Solid Waste in Cell B of Phase 2 as approved by the current Landfill Permit. As the County gets closer to the capacity of that cell, County Staff is recommending the County move into Phase 3 of the Landfill expansion and begin the process of developing and constructing Cell C. Using the County's current rate of disposal of 10,808 cubic yards per month, Cell B has an estimated life span of approximately thirty-eight (38) months as of December 31, 2020. This would allow for just over three (3) years to design and obtain the necessary DEQ permits for Cell C. County Staff has submitted a proposal for an additional 46,000 tons of waste per year, which would be a disposal rate of 16,830 cubic yards per month. This contract would be effective January 1, 2021. This would allow for just under twenty-five (25) months to design and obtain the necessary permits. Due to the short time frame remaining, County Staff is requesting that the Board approve a Professional Consulting Services Agreement with LaBella for the Phase 3 expansion of the County Landfill. The total cost for the services would be \$242,000. This will result in an aggressive timetable to be ready for the waste to be delivered. For your review and consideration, attached is a copy of the proposed Professional Consulting Services Agreement ("LaBella Agreement"). A summary of the current disposal rates and proposed disposal rates are also attached for your review, which illustrates the need to move forward on this project.

**FINANCIAL IMPACT AND FUNDING SOURCE:**

\$242,000; the cost of the consulting services would be paid from the Solid Waste Fund.

**RECOMMENDATION:**

County Staff recommends the Board authorize the County Administrator to execute the attached LaBella Agreement as presented.

**MOTION:**

"I make a Motion to Authorize the County Administrator to execute the attached LaBella Agreement as presented."

Attachment: Pittsylvania County Phase 3 expansion Final 08.18.20 (2163 : Landfill Expansion Engineering Services Contract Approval

**Exhibit A**  
**Scope for Professional Consulting Services**  
**PITTSYLVANIA COUNTY**

**Background/Project Understanding:**

Pittsylvania County (County) is planning to expand the Pittsylvania County Sanitary Landfill (Permit No. 571) towards the east to develop Phase 3, including an overlap or “piggyback” onto the existing Phase 2 portion of the facility. The Phase 3 portion of this eastern expansion area is approximately 41 acres in size and is located to the east of the Phase 2 portion of the facility. Pursuant to the landfill expansion, LaBella Associates, D.P.C., P.C. (LaBella) has provided this proposal to review the previously approved Part A submittal for completeness and prepare a Part B Application in accordance with the Virginia Solid Waste Management Regulations (VSWMR) and the Code of Virginia §10.1-1400 *et seq.*

**Task 01 – Notice of Intent and Part A Application Due Diligence**

Pittsylvania County currently has an approved Notice of Intent and Part A Application from the Virginia Department of Environmental Quality (DEQ), dated June 10, 1993. This approval permitted approximately 294 acres of the total 450 acres of the facility’s property. The approximate 294 acres includes a portion of the Phase 1 (lined Phase 1), the Phase 2, proposed Phase 3, and future Phase 4. At this time, LaBella does not have a copy of the complete Part A Application. Although the Part A Application has been approved, LaBella recommends that the previous Part A activities be reviewed and, if necessary, updated to satisfy the DEQ, the Part B permitting and development requirements proposed for Phase 3 and associated infrastructure (i.e. is there adequate data from the completed borings to support the proposed base grades, etc.).

**A. Scope**

This task may include, but not be limited to the following activities:

- Locate and review a full copy of the existing Part A Application to ensure the technical content is adequate to proceed with the Part B.
- Conduct a meeting with DEQ, discussing the technical adequacy of the existing Part A in relation to the current regulatory requirements and proposed modification. Discuss the potential need, if any, for supplemental investigation and/or submission requirements relating to the Part A.
- Conduct a preliminary wetlands delineation and survey.
- Perform a topographic survey and locate property corners and easements in the vicinity of the Phase 3 expansion for use in establishing existing conditions for preparation of the Part B application.

If supplemental efforts are deemed necessary by DEQ, this task includes a Notice of Intent and Site Investigation, as discussed below.

### Notice of Intent (If Necessary)

The Notice of Intent (if necessary) will be prepared in accordance with the DEQ's Submission Instruction No. 1, last revised January 2012. As needed, LaBella will perform the following tasks associated with preparing and submitting the Notice of Intent:

- Complete a Cover Letter for the Notice of Intent.
- Develop an Area Map showing the facility and surrounding areas.
- Develop a Site Location Map showing the facility property and facility boundaries.
- Obtain local government certification from the County (signed DEQ Form SW-11-1).
- Provide a discussion of disposal limits/service area.
- Landfill Impact Statement.
- Obtain a VDOT Adequacy Report for the facility expansion.
- Prepare a Demonstration of Need based on 9VAC-20-81-450.B.8 for the landfill expansion.
- Assist with notification of adjacent property owners.
- Evaluate historical groundwater elevations and prepare a seasonal high groundwater contour map.

### Site Investigation (If Necessary)

- In accordance with the VSWMR, 8 borings are required for Part A application areas that are 10-49 acres in size. If necessary, LaBella will conduct a Site Investigation consisting of the installation of up to 8 soil borings as supplemental information for the existing Part A. Each boring will be advanced to a depth of up to 80 feet below ground surface (bgs). Four borings will be converted into temporary piezometers, which will be installed at least 10 feet into the uppermost aquifer.
- Split-spoon sampling (or equivalent) will be conducted every 5 feet from the ground surface to the lowest base grade elevation of the future cell which is anticipated to be at approximately 630 feet above mean sea level (AMSL). Split-spoon sampling will be conducted on a continuous basis for the first 20 feet below the approximate base grade, and then return to every 5 feet.
- The overburden soils will be sampled for geotechnical analysis to estimate volume of on-site soils for use as liner, cap, and drainage layer. These samples will be collected from two test pits and will be analyzed for the following tests: natural moisture, Atterberg limits, Proctor, particle size distribution, percent compaction, remolded density and moisture content, and percent saturation. In addition, up to four undisturbed Shelby tube samples will be collected from the overburden and/or saturated soils from four of the soil borings. The Shelby tube samples will be tested for in-situ hydraulic conductivity. The geotechnical samples discussed herein will be tested at a geotechnical Laboratory. The frequency of geotechnical sample collection may be reduced should the on-site geologist determine that the soil texture and density (via blow counts) is uniform across the site.
- Conduct slug tests (rising and falling head) for at least two of the piezometers to determine the hydraulic conductivity of the uppermost aquifer.

- LaBella will contract and coordinate with a surveyor to pre-survey the boring locations and stake/flag locations in the field prior to drilling activities.
- LaBella will contract and coordinate with a surveyor to locate the boring locations and provide the final northing, easting (+ 0.5 foot), and top-of-casing and ground surface elevations (+ 0.01 foot) for the boring locations.

## B. Deliverables

The deliverables (if applicable) for this task are as listed below:

- Notice of Intent associated attachments.
- Geotechnical testing data for overburden soils.
- Hydraulic conductivity data from slug testing performed at two of the piezometers installed in the expansion area.
- Topographic survey.

## C. Schedule

The meeting with DEQ will be scheduled within **60 calendar days** of a final executed contract addendum. If necessary, the Notice of Intent will be submitted to the County for review within **45 calendar days** of the meeting with DEQ or as mutually agreed upon. The Notice of Intent will be submitted to DEQ within **30 calendar days** of receipt of all comments from the County. If necessary, the site investigation activities will commence within **60 calendar days** of the meeting with DEQ or as mutually agreed upon. The field investigation is anticipated to be completed within 2-4 weeks.

## D. Limitations

- The budget represents our understanding of the current conditions and assumes DEQ will not require a Part A modification.
- This budget represents our understanding of the current conditions and the scope of services required to provide a permit amendment application that is in compliance with the current VSWMR and Code of Virginia §10.1-1400 *et seq.* Should substantial changes occur to these conditions, VSWMR, or Code of Virginia §10.1-1400 *et seq.*, LaBella reserves the right to adjust this budget and schedule accordingly. Specifically, this budget assumes the following items are not required aspects of this permit amendment:
  - Disclosure Statement
  - Public Meeting/Comment Period
- Permit application fees are not included in the fee for this task. It is understood that Pittsylvania County will pay all permit application fees directly.
- This scope of work does not include detailed wetland delineation and mitigation. If wetland delineation and mitigation is required, those services will be included in a separate scope of work.
- This scope of work does not include responses to DEQ comments or revisions to the Notice of Intent (see Task 03).

- This scope assumes that the top of bedrock will be encountered within 80 feet from the ground surface.
- The budget assumes the well drilling and installation can be completed within 5 business days. This proposal assumes that the County will clear a path to the boring locations prior to mobilizing a drill rig to the site.
- The budget assumes that County personnel and equipment will be able to assist in excavating and refilling test pits.
- Client-generated activities beyond the above scope or in excess of the estimated budget are subject to additional charges billed at hourly rates plus expenses or negotiated fees and may affect the project schedule accordingly.

**E. Compensation**

## Task 02 – Part B Permit Modification

### A. Scope

The purpose of this task is to prepare and submit to the DEQ, a Part B major permit modification application to Solid Waste Permit No. 571) to expand the landfill to the east to include the Future Phase 3 area outlined on the current permit drawings. In addition, LaBella is proposing to revisit the Phase 2 Cell C base grades and the location of the existing stormwater/erosion control pond to potentially to increase airspace. This scope is based on our current knowledge and understanding of the project and the DEQ's requirements. The Part B permit modification application will contain the appropriate engineering design, drawings, calculations, and documents to modify the facility's disposal facility permit. During performance of this task, the following activities will be completed:

- Establish base grades, engineering modification grades, and closure grades for the Phase 3 area expansion.
- Develop the leachate collection and removal system for the expansion area. This will include calculation for the side slope riser, pump, and force main for ultimate discharge to the on-site leachate storage lagoon.
- Design the required erosion and sediment control and stormwater management systems.
- Prepare the necessary revisions to the permit modification documentation including the Design Report, Groundwater Monitoring Plan, Closure Plan, Post Closure Care Plan, CQA Plan, Technical Specifications, Landfill Gas Management Plan, Leachate Management Plan, and Permit Drawings.
- Evaluate relocation of the existing stormwater/erosion control pond, currently located immediately to the east of Phase 2 Cell A, and adjustments to the base grades for Phase 2 Cell C. as potential options to increase airspace.
- Site visits to review site designs with conditions on the ground. (Two site visits are anticipated)
- Conduct project management, quality control reviews, and project coordination activities.

### B. Deliverables

The deliverables of this project are the major permit modification application documents. The following documents will likely be updated or prepared:

- Closure Plan
- Post Closure Care Plan
- Design Report
- CQA Plan
- Technical Specifications
- Leachate Management Plan
- Landfill Gas Management Plan
- Groundwater Monitoring Plan

- Erosion and Sediment Control Plan/Stormwater Management Plan
- Drawings

**C. Schedule**

A draft of the permit modification application will be submitted to Pittsylvania County for review within **90 calendar days** of complete execution of this addendum and completion of site investigation activities (if necessary), whichever is later.

The final document will be ready for submittal to the DEQ within **30 calendar days** of LaBella’s receipt of Pittsylvania County’s review comments.

**D. Limitations**

- This scope and fee assumes that the facility’s Operations Manual on-site is sufficient for this proposed area.
- Not included are the costs associated with advertisements of public notices. It is understood that Pittsylvania County will pay all permit advertising costs directly.
- This fee represents our understanding of the current conditions and the scope of services required to provide a permit modification application that is in compliance with the current VSWMR. Should substantial changes occur to these conditions or regulations, LaBella reserves the right to adjust this fee and schedule accordingly.
- Pittsylvania County will provide all comments to the draft Part B Application at **one time**. Additional charges in accordance with LaBella’s Professional Rate Schedule will be incurred if multiple rounds of comments are provided.
- Permit modification related meetings and responses to regulatory comments will be handled under Task 03.
- The current liner and cap sections will be revisited with this permit modification.
- Permit application fees are not included in the fee for this task. It is understood that Pittsylvania County will pay all permit application fees directly.
- Delineation and/or mitigation activities associated with wetlands, are not included in this task.
- No surveying is included in this scope. The topographic survey to be used to prepare the Part B application will be performed under Task 01.
- Client-generated activities beyond the above scope are subject to additional charges billed at hourly rates plus expenses or negotiated fees and may affect the project schedule accordingly.

**E. Compensation**

**Fixed Fee: \$102,000 (To be billed on a percent complete basis)**

### Task 03 – Response to Comments and Meetings

#### A. Scope

The purpose of this task is to participate in meetings, and address and provide written responses to DEQ comments on their completeness and technical reviews of the Notice of Intent and Part B major permit modification application. Review meetings with the County will also be conducted, as desired, during the preparation of the Part B permit modification. During performance of this task, the following activities will be provided as needed:

- Provide written responses to relevant public comments received during the “draft permit” public comment period.
- Provide written responses and permit revisions based on completeness review comments.
- Provide written responses and permit revisions based on technical review comments.
- Utilize telephone conversations to understand comments prior to responding.
- Provide coordination and technical lead for progress review meeting(s) with Pittsylvania County during the preparation of the Part B permit modification application documents.
- Prepare for and attend the “draft permit” public meeting.

#### B. Schedule

- Provide written responses and permit revisions based on completeness review comments within **30 calendar days** of LaBella’s receipt of comments, or in accordance with a schedule mutually agreed upon by LaBella and Pittsylvania County. This task assumes response to one round of completeness review comments.
- Provide written responses and permit revisions based on technical review comments within **45 calendar days** of LaBella’s receipt of comments, or in accordance with a schedule mutually agreed upon by LaBella and Pittsylvania County. This task assumes response to two rounds of technical review comments.

#### C. Limitations

- Due to the unknown nature and amount of comments that may be produced by DEQ as well as the number of review meetings with the County or DEQ, this budget may not be sufficient to address all comments and participate in all meetings,. Revisions may need to be made to the schedule and budget based on a thorough review of actual comments received and meetings required to address these comments in a timely manner.
- Client-generated activities in excess of the budget are subject to additional charges billed at hourly rates plus expenses or negotiated fees and may affect the project schedule accordingly.

#### D. Compensation

**Pittsylvania County Landfill Evaluation of remaining life of Cells 2A and 2B**

As of March 12, 2020 the remaining disposal volume of Cells 2A and 2B =

575,000 CY – 57,500 CY (operational soils) = **517,500 CY remaining disposal volume**

**2020**

January 1 – August 31 average disposal = 6877 tons/month.

6877 tons/mo. x 1CY/0.7tons = 9825 CY/mo. + 983 CY/mo. (soils) = 10,808 CY/mo.

2020 volume depletion = 10,808 CY/mo. x 9.5 mo. = 102,676 CY.

517,500 CY – 102,676 CY = **414,824 CY remaining at 12.31.2020**

**2021**

Assume on January 1, 2021 Pittsylvania County receives and additional 46,000 tons/year = 3833 tons/mo.

2021 disposal = 6877 tons/mo. (current) + 3833 tons/mo. (additional) = 10,710 tons/mo.

10,710 tons/mo. x 1CY/0.7tons = 15,300 CY/mo. + 1530 CY/mo. (soils) = 16,830 CY/mo.

2021 volume depletion = 16,830 CY/mo. x 12 mo. = 201,960 CY

414,824 CY – 201,960 CY = **212,864 CY remaining at 12.31.2021**

212,864 CY/16,830 CY/mo. = **12.7 months remaining life at 12.31.2021**

**Based on the above calculations Cells 2A and 2B will be full by January 2023.**

### Expansion into Cell 2C and Phase 3

LaBella recommends completing a landfill permit modification before constructing Cell 2C. This permit modification would include modifying Cell 2C design and permitting the landfill for expansion into Phase 3. The purpose of this permit modification is to maximize the landfill's remaining disposal volume and life by more efficiently utilizing the land remaining on the northern side of the gas pipeline R/W.

LaBella would evaluate modifications to Cell 2C to include; lowering the base grades; relocating the existing stormwater management pond; relocating on-site access roads and re-routing leachate collections pipes.

Phase 3 has never had a VA DEQ Part B application prepared so LaBella recommends including this area in the permit modification application.

### Schedule

Given there is less than 2.5 years remaining in Cells 2A and 2B, based on the increased tonnage assumptions above, LaBella recommends the following schedule:

Permit modification Cell 2C and Phase 3: September 2020 - June 2022

Bidding & Construction Cell 2C: June 2022 - December 2022

### Future Expansion

After permitting Phase 3, LaBella recommends Pittsylvania County evaluate a vertical expansion design on top of the closed portions of Phase 1 and all other areas west of the power line easement and north of the gas line easement.

**SUMMARY:**

The Regional Economic Development Strategic Plan Steering Committee was charged by the Board and Danville City Council with proposing membership to the new Danville-Pittsylvania Economic Development Alliance (“Alliance”). The Alliance’s goal is to lead, coordinate, and hold accountable the numerous organizations that have a meaningful role in the Region’s economic development effort. The Committee proposes that a Leadership Council be created to provide guidance on implementing the Region’s Economic Development strategy. The nine (9) person Council is to be comprised of the Danville City Manager, County Administrator, Danville Regional Foundation CEO, Institute “(IALR)” Executive Director, Chamber of Commerce President, two (2) Industry leaders (one (1) from each jurisdiction) and two (2) Regional/State Economic Development representatives appointed by the Danville City Manager, County Administrator, and DRF CEO. Ultimately, the Leadership Council will be responsible for determining the broad membership of the Operational Coalition, which is anticipated to be comprised of stake holders representing education, workforce, infrastructure, business, finance, and quality of life interests.

**FINANCIAL IMPACT AND FUNDING SOURCE:**

No direct financial impact.

**RECOMMENDATION:**

County Staff recommends the Board adopt Resolution # 2020-09-05 as presented. After reviewing the Steering Committee’s proposal, several Board Members have expressed concern about the size and make-up of the Leadership Council. It was also expressed that the funding leaders with Danville City, County, IALR, and DRF should comprise the Leadership Council’s majority. Therefore, it is recommended that the two (2) Regional Economic Development leaders be eliminated from the Leadership Council proposal.

Best rating of A- or better, with limits of ONE MILLION DOLLARS (\$1,000,000) per occurrence and TWO MILLION DOLLARS (\$2,000,000) aggregate. Certificate of Insurances evincing the same shall be provided to the County by the YMCA within fifteen (15) days of MOU execution.

**VII. CERTIFICATIONS AND BACKGROUND CHECKS.** YMCA acknowledges that as a condition of this Agreement, it must certify any employee of YMCA, nor any other person who will

provide services under this Agreement and will have direct contact with a Program participant, has not been convicted of a felony or any offense involving the sexual molestation or physical or sexual abuse or rape of a child. YMCA further acknowledges that such certification shall be binding on YMCA throughout the term of this Agreement, including renewals or extensions thereof, and agrees to provide immediate notice to the County of any event which might render such certification untrue, including the arrest, indictment, or investigation of any individual providing such services.

Per Virginia Code § 22.1-296.2, YMCA shall conduct criminal background checks of its employees and student volunteers and, upon receipt of said background checks, certify to the County that no employee or volunteer who will be working with Program participants have been convicted of a violent or serious felony as defined by the aforementioned statute.

B. Venue. If legal action by either Party is necessary for or with respect to the enforcement of any or all of the terms and conditions hereof, then exclusive venue therefore shall lie in Pittsylvania County, Virginia.

C. Mediation:

(i) Good faith mediation shall be a condition precedent to the filing of any litigation in law or equity by either Party against the other Party relating to this MOU. Before the remedies provided for in this Section may be exercised by either Party, such Party shall give written notice to the other Party that such Party believes that an event of default or impasse under this MOU may have occurred, specifying the circumstances constituting the event of default or impasse in sufficient detail that the other Party will be fully advised of the nature of the event of default or impasse. The responding Party shall prepare and serve a written response thereto within ten (10) business days of receipt of such notice. A meeting shall be held within ten (10) business days after the response between the Parties to attempt in good faith to negotiate a resolution of the dispute.

The mediator shall be mutually selected by the Parties, to the controversy and conduct mediation at a location to be agreed upon by the Parties or absent agreement, by the mediator. Within two (2) business days of selection, the mediator shall be furnished copies of the notice, this MOU, response, and any other documents exchanged by the Parties. If the Parties and the mediator are unable to settle the same within thirty (30) days from selection, or such other time as the Parties agree, the mediator shall make a written recommendation as to the resolution of the dispute. 6. INVALID/UNENFORCEABLE PROVISIONS. If any provision of this MOU is held to be invalid or unenforceable for any reason, the remaining provisions will continue to be valid and enforceable. If a Court finds that any provision of this MOU is invalid or unenforceable, but that by limiting such provision it would become valid and enforceable, then such provision will be deemed to be written, construed, and enforced as so limited.

7. WAIVER. The failure of either Party to enforce any provision of this MOU shall not be construed as a waiver or limitation of that Party's right to subsequently enforce and compel strict compliance with every provision of this MOU.

8. RULE OF CONSTRUCTION WAIVER. The rule construction or interpretation against the drafter is waived. The MOU shall be deemed as if it were drafted by both Parties in a mutual effort.

Being a part of the same land conveyed to the Board of Supervisors of Pittsylvania County, Virginia by quitclaim deed dated April 5, 1983 from the Commonwealth of Virginia, Department of Highways and Transportation and Recorded in the Clerk’s Office of Pittsylvania County, Virginia on November 4, 1983 in Deed Book 732, Page 63.

<b>Agenda Title:</b>	Budget Amendments/Appropriations (Staff Contact: Kimberly G. Van Der Hyde)

<b>Agenda Date:</b>	September 15, 2020	<b>Item Number:</b>	7.k

<b>Reviewed By:</b>	VH		

**SUMMARY:**

Several County Budget Amendments need to be considered for approval and appropriation to the FY2020-2021 County Budget. These Amendments include:

- a.) **Clerk of Court:** The Clerk of Court's Office collects payments from citizens concerning court related matters. It is the Clerk's responsibility to remit these payments to the State, however; the Clerk can retain a certain amount of these funds to help offset the cost of producing and maintaining documents. These amounts are appropriated back to the Clerk's annual Budget to cover these expenditures. At June 30, a total of \$23,542.26 remained in this account. This total needs to be appropriated to the FY2021 County Budget to be used for Clerk expenditures.
- b.) **Dilapidated Structure:** An expenditure line item was established in the Zoning Budget to cover the removal of dilapidated structures in the County. A total of \$20,000 remained in this line item at June 30. This amount needs to be appropriated to the FY2021 County Budget and the total amount in this line item needs to be transferred to the Capital Improvements Budget so future carryover amounts need not be approved each year.
- c.) **Cell Tower Closeout:** Final acceptance of the E911 Project was completed in August 2020. As such, a total of \$8,046.04 was needed to finish out the Project. Several Change Orders occurred during this Project, one (1) of which was needed to firm up tower foundations to accept additional equipment from AT&T and Verizon. Both entities paid their perspective shares of this cost but one-third (1/3) of the cost was to be paid by the County. Therefore, it is necessary to transfer this remaining amount to close out the Project.
- d.) **Dangerous Dog Fund:** A Fund for housing dangerous dog fees paid by dangerous dog owners was established in the Animal Fund (Fund 245). Since the Pet Center was opened and is now accepting payments at the Facility, this Fund is used exclusively for the Pet Center. A total of \$1,400.00 currently exists in the Fund. This amount needs to be appropriated to the FY2021 County Budget and transferred to the Animal Control Operating Budget to cover the cost of dangerous dog fees charged by the State for these animals.

e.) **Animal Friendly Plate Revenue:** A total of \$254.18 remained in the Animal Friendly Plate Revenue Fund at June 30. These funds are used for the spaying/neutering of County animals. These funds need to be appropriated to the FY2021 County Budget and will be added to future revenues anticipated from the sale of Animal Friendly Plates for controlling the County pet population.

**FINANCIAL IMPACT AND FUNDING SOURCE:**

There is no financial impact concerning the Budget Amendments listed above since they have all been previously funded in the FY2020 County Budget.

**RECOMMENDATION:**

County Staff recommends the Board approve the items as listed above.

**MOTION:**

“I make a Motion to approve the Budget Amendments as listed above.”

Section 8 of the Budget Resolution, passed on April 2, 2020, covers appropriations for Capital Projects. As the Section states, “appropriations designated for Capital Projects will not lapse at the end of the Fiscal Year, but shall remain appropriated until the completion of the Project or until the Board of Supervisors, by appropriate Ordinance or Resolution, changes or eliminates the appropriation.” For the Board’s reference and review, attached is a list of Capital Improvement Projects that existed in the Capital Improvements Fund (Fund 310), Economic Development Fund (Fund 325), and the Landfill Fund (Fund 520) in the FY2020 Budget, along with new Projects that were included in the FY2021 Budget.

**FINANCIAL IMPACT AND FUNDING SOURCE:**

Funding for these Projects were established in the FY2020 and FY2021 Budgets. Therefore, no additional funds are needed to cover these Projects.

**SUBJECT**

Carol A. Holley Hobbs and Roger Edward Hobbs petitioned the Planning Commission/Board of Supervisors on July 30, 2020, to rezone from R-1, Residential Suburban Subdivision District and RC-1, Residential Combined Subdivision District to A-1, Agricultural District on three (3) parcels of land totaling 37.29 acres, located on State Road 872/Meadowview Drive, in the Westover Election District. The parcels are shown on our records as GPIN #s 1388-35-8271 (7.26 acres), 1388-44-6628 (26.51 acres), and 1388-55-1172 (3.52 acres).

**BACKGROUND/DISCUSSION**

Carol and Roger Hobbs are requesting to rezone three (3) parcels of land totaling 37.29 acres from R-1 Residential Suburban Subdivision District and RC-1, Residential Combined Subdivision District to A-1, Agricultural District so that property lines may be adjusted. The applicants would like to combine the three (3) parcels and then subdivide them in a way that would allow for their two (2) children to build on the properties. All properties must share the same zoning classification to be consolidated, requiring the subject properties to be rezoned prior to consolidation.

Additionally, both R-1, Residential Suburban Subdivision District and RC-1, Residential Combined Subdivision District require a minimum of seventy-five (75) feet of road frontage for new lots. Due to the location and shape of the subject properties and the location of the current dwelling located on one of the parcels, the applicants will be unable to meet this requirement. Rezoning to A-1, Agricultural District, reduces the required road frontage to fifty (50) feet.

A conceptual plan has been submitted with the application to show the proposed property line adjustments. Two of the subject properties are currently vacant and one is occupied by the applicants' single-family dwelling.

**Once the properties are rezoned to A-1, all uses listed under Section 35-178 are a permitted use.**

**DIRECTIONS**

See Map Quest directions. One of the petitioned parcels (vacant lot) is located adjacent to 187 Meadowview Drive; the other two (2) parcels are located to the rear of the vacant lot with site addresses of 341 Meadowview Drive and 343 Meadowview Drive, Danville, VA.

**RELATIONSHIP TO THE SURROUNDING LAND USE AND NEIGHBORING AREAS**

The Comprehensive Plan for the general area is A-1, Agricultural District, R-1, Residential Suburban Subdivision District, RC-1, Residential Combined Subdivision District, B-2, Business District, General, RMF, Residential

Attachment: HOBBS - CASE R-20-017 (2169 : Public Hearing: Rezoning Case R-20-017 Carol and Roger Hobbs)

Multi-Family District, MHP, Residential Manufactured Housing Park District, and RE, Residential Estates District.

### **ZONING OF SURROUNDING PROPERTIES**

Adjacent to A-1, Agricultural District, R-1, Residential Suburban Subdivision District, RC-1, Residential Combined Subdivision District, and RMF, Residential Multi-Family District zoned properties.

### **SITE DEVELOPMENT PLAN**

A conceptual site plan showing the proposed lot lines is attached.

### **RECOMMENDATION**

Staff recommends APPROVAL of Case R-20-017, submitted by Carol and Roger Hobbs, requesting to rezone three (3) parcels of land totaling 37.29 acres, located on State Road 872/Meadowview Drive, in the Westover Election District, from R-1 Residential Suburban Subdivision District and RC-1, Residential Combined Subdivision District to A-1, Agricultural District, to allow the property to be combined and property lines to be redrawn. The subject property is adjacent to properties currently zoned A-1, Agricultural District and the proposed rezoning would be consistent with the Comprehensive Plan.

### **PLANNING COMMISSION OPTIONS**

1. Recommend approval of Case R-20-017 as submitted.
2. Recommend denial of Case R-20-017 as submitted.

On September 1, 2020, the Planning Commission recommended by a 6 to 0 vote, (two (2) members, Mrs. Mease and Mr. Stowe, were absent), with no opposition, that the petitioners' request be granted. During the discussion, it was stated the property should be zoned A-1 because the wooded area was a tobacco farm.

**SUBJECT**

Tony A. Wilson and Debbie S. Wilson petitioned the Planning Commission/Board of Supervisors on June 30, 2020, to rezone from R-1, Residential Suburban Subdivision District to B-2, Business District, General on 1.31 acres, located on State Road 1501/Fall Creek Drive, in the Westover Election District. The parcel is shown on our records as GPIN # 2329-57-2347.

**BACKGROUND/DISCUSSION**

Tony and Debbie Wilson are requesting to rezone 1.3 acres on Fall Creek Drive to allow the single-family dwelling located on the property to be used as an office for their construction business. The property is currently zoned R-1, Residential Suburban Subdivision District, which does not allow for an office to be operated on the property as the primary use. Rezoning the property to B-2, Business District, General would allow for this use.

The structure is currently vacant. If the rezoning is granted, the property would be required to meet all applicable building codes and a Change of Use would need to be done before it could be used for an office. The required three (3) on-site parking spaces would also have to be provided. The applicants have submitted a site plan that shows the proposed parking layout. The Virginia Department of Transportation has reviewed the entrance located on US 29 and determined that it is suitable for a low volume commercial entrance.

**Once the property is rezoned to B-2, all uses listed under Section 35-365 are a permitted use.**

**DIRECTIONS**

See Map Quest directions. The petitioned parcel is located at 1800 Fall Creek Drive, Danville, VA

**RELATIONSHIP TO THE SURROUNDING LAND USE AND NEIGHBORING AREAS**

The Comprehensive Plan for the general area is A-1, Agricultural District, R-1, Residential Suburban Subdivision District, RC-1, Residential Combined Subdivision District, B-1, Business District, Limited, B-2, Business District, General, RMF, Residential Multi-Family District, MHP, Residential Manufactured Housing Park District, and M-1, Industrial District, Light Industry.

**ZONING OF SURROUNDING PROPERTIES**

Adjacent to R-1, Residential Suburban Subdivision District, B-1, Business District, Limited, and B-2, Business District, General, zoned properties.

**SITE DEVELOPMENT PLAN**

A proposed site plan is enclosed in the board packet.

Kathy,

I think an entrance for the proposed business would fall under the category of "low volume commercial entrance". This means that the business would generate 50 or fewer vehicle trips per day. A trip is counted each time a vehicle uses the entrance, whether going in or out.

Technically, the entrance proposed on the sketch is good enough for a low volume entrance. However, I would still recommend that the existing entrance on Fall Creek Drive be utilized for the business and that a new entrance not be installed along Business 29. I think that is the safest option.

The location of the entrance on the sketch would definitely not be suitable for a full-fledged commercial entrance. Please let me know if you have any questions or need any additional information.

Thanks,

Jay Craddock

**SUBJECT**

Sammy T. Moore and Freda W. Moore petitioned the Planning Commission/Board of Supervisors on July 30, 2020, to rezone from R-1, Residential Suburban Subdivision District to A-1, Agricultural District on 54.35 acres, located on State Road 878/Duncan Drive, in the Westover Election District. The parcel is shown on our records as GPIN # 1377-66-7047.

**BACKGROUND/DISCUSSION**

Sammy and Freda Moore are requesting to rezone 54.35 acres from R-1, Residential Suburban Subdivision District to A-1, Agricultural District so that the property can be subdivided. The applicants are proposing to subdivide their property into four (4) parcels for their children. Under the current R-1, Residential Suburban Subdivision zoning classification, new lots are required to have at least 75 feet of road frontage. The current parcel has approximately 100 feet of road frontage and is therefore unable to meet the requirements needed for subdivision.

While A-1, Agricultural District requires 50 feet of road frontage for new lots, Virginia State Code § 15.2-2244.1 allows for a family exemption from local subdivision ordinances as long as the property is occupied by an immediate family member for at least 15 years. If this property is rezoned to A-1, Agricultural District, the applicant could use this exemption to be allowed to subdivide the current property. The subject property is currently occupied by one single family dwelling.

**Once the property is rezoned to A-1, all uses listed under Section 35-178 are a permitted use.**

**DIRECTIONS**

(a) Except as otherwise provided in this Constitution, the following property and no other shall be exempt from taxation, State and local, including inheritance taxes:

- (1) Property owned directly or indirectly by the Commonwealth or any political subdivision thereof, and obligations of the Commonwealth or any political subdivision thereof exempt by law.
- (2) Real estate and personal property owned and exclusively occupied or used by churches or religious bodies for religious worship or for the residences of their ministers.
- (3) Private or public burying grounds or cemeteries, provided the same are not operated for profit.
- (4) Property owned by public libraries or by institutions of learning not conducted for profit, so long as such property is primarily used for literary, scientific, or educational purposes or purposes incidental thereto. This provision may also apply to leasehold interests in such property as may be provided by general law.
- (5) Intangible personal property, or any class or classes thereof, as may be exempted in whole or in part by general law.
- (6) Property used by its owner for religious, charitable, patriotic, historical, benevolent, cultural, or public park and playground purposes, as may be provided by classification or designation by an ordinance adopted by the local governing body and subject to such restrictions and conditions as provided by general law.
- (7) Land subject to a perpetual easement permitting inundation by water as may be exempted in whole or in part by general law.

(b) The General Assembly may by general law authorize the governing body of any county, city, town, or regional government to provide for the exemption from local property taxation, or a portion thereof, within such restrictions and upon such conditions as may be prescribed, of real estate and personal property designed for continuous habitation owned by, and occupied as the sole dwelling of, persons not less than sixty-five years of age or persons permanently and totally disabled as established by general law. A local governing body may be authorized to establish either income or financial worth limitations, or both, in order to qualify for such relief.

(c) Except as to property of the Commonwealth, the General Assembly by general law may restrict or condition, in whole or in part, but not extend, any or all of the above exemptions.

(d) The General Assembly may define as a separate subject of taxation any property, including real or personal property, equipment, facilities, or devices, used primarily for the purpose of abating or preventing pollution of the atmosphere or waters of the Commonwealth or for the purpose of transferring or storing solar energy, and by general law may allow the governing body of any county, city, town, or regional government to exempt or partially exempt such property from taxation, or by general law may directly exempt or partially exempt such property from taxation.

(e) The General Assembly may define as a separate subject of taxation household goods, personal effects and tangible farm property and products, and by general law may allow the governing body of any county, city, town, or regional government to exempt or partially exempt such property from taxation, or by general law may directly exempt or partially exempt such property from taxation.

(f) Exemptions of property from taxation as established or authorized hereby shall be strictly construed; provided, however, that all property exempt from taxation on the effective date of this section shall continue to be exempt until otherwise provided by the General Assembly as herein set forth.

(g) The General Assembly may by general law authorize any county, city, town, or regional government to impose a service charge upon the owners of a class or classes of exempt property for services provided by

such governments.

(h) The General Assembly may by general law authorize the governing body of any county, city, town, or regional government to provide for a partial exemption from local real property taxation, within such restrictions and upon such conditions as may be prescribed, (i) of real estate whose improvements, by virtue of age and use, have undergone substantial renovation, rehabilitation or replacement or (ii) of real estate with new structures and improvements in conservation, redevelopment, or rehabilitation areas.

(i) The General Assembly may by general law allow the governing body of any county, city, or town to exempt or partially exempt from taxation any generating equipment installed after December thirty-one, nineteen hundred seventy-four, for the purpose of converting from oil or natural gas to coal or to wood, wood bark, wood residue, or to any other alternate energy source for manufacturing, and any co-generation equipment installed since such date for use in manufacturing.

(j) The General Assembly may by general law allow the governing body of any county, city, or town to have the option to exempt or partially exempt from taxation any business, occupational or professional license or any merchants' capital, or both.

(k) The General Assembly may by general law authorize the governing body of any county, city, or town to provide for a partial exemption from local real property taxation, within such restrictions and upon such conditions as may be prescribed, of improved real estate subject to recurrent flooding upon which flooding abatement, mitigation, or resiliency efforts have been undertaken.

The amendment ratified November 2, 1976 and effective January 1, 1977—After (a)(6), added subdivision "(7) Land subject to a perpetual easement . . .". In subsection (b), after "sixty-five years of age", added the language "or persons permanently and totally disabled as established by general law". After "of real estate", added "and personal property designed for continuous habitation". Substituted "property" for "real estate" near the end of subsection (b).

The amendment ratified November 4, 1980 and effective January 1, 1981—Added a new subsection (i).

The amendment ratified November 3, 1998 and effective January 1, 1999—Added a new subsection (j).
