NEW BUSINESS

a. RIFA Cane Creek Bond Refinancing Authorization (Staff Contact: Kimberly G. Van Der Hyde)

Mrs. Van Der Hyde stated, in 2005, the Danville-Pittsylvania Regional Industrial Facilities Authority ("RIFA") issued variable rate revenue bonds in an aggregate principal amount of \$7,300,000 to fund expenses related to developing Cane Creek Centre. This Project was jointly supported by the City of Danville ("Danville") and the County. Danville and the County recently received a credit commitment from Wells Fargo Bank to refinance the 2016 taxable revenue refunding bonds (the "Bonds"). The principal amount being refinanced at this time is an amount not to exceed \$2,545,000. The rate that has been negotiated with Wells Fargo is an indicative fixed rate of 3.95% for a term of 5 ½ years. The actual fixed rate for this refunding shall be determined on the rate set date. The Bonds will be paid off in 2025. A Moral Obligation Pledge will be required from both Danville and the County in the form of Support Agreements. This will not add to the County's existing moral obligations; it will simply replace the existing Support Agreement that will expire with the current Letter of Credit. The RIFA Board approved its Resolution to refinance at its June 10, 2019, Meeting. Danville will also pass a similar Resolution as the one being presented to the Board at its June 18, 2019, Meeting.

Motion to approve the attached Support Agreement and Resolution # 2019-06-01 to refinance RIFA's outstanding Revenue Refunding Bond Series 2016.

b. Colonial Pipeline Grant Appropriation (Staff Contact: Kimberly G. Van Der Hyde)

Mrs. Van Der Hyde stated the County recently received a check in the amount of \$10,000 from the Colonial Pipeline for a Hazmat Grant. These funds will be used by the County's Public Safety Department to purchase hazmat supplies. The Colonial Pipeline Grant, totaling \$10,000, requires no local match, but needs to be appropriated in the following manner: line item # 250-4-032417-601400 Hazmat Supplies \$10,000.

Motion to accept the Colonial Pipeline Grant, and appropriate a total of \$10,000 to the Grants Fund.

c. Radio Tower Project Change Order (Staff Contact: Richard N. Hicks)

Mr. Hicks stated that in November of 2017, the Board of Supervisors awarded the bid for the equipment to be installed on the new Tunstall Fire Department and Old Mayfield Convenience Center radio towers to Harris in the amount of \$1,184,000. This bid was awarded prior to the construction bids in order to allow Harris to order the equipment that would have a long lead time. The bid for the construction of the towers was delayed due to the bid costs being above the projected budget. Staff spent the next several months negotiating with Black & Veatch to get the project within budget. Those negotiations were successful and the Board of Supervisors awarded the bid on June 19, 2018. There was a tremendous amount of preliminary work that needed to be done prior to the start of construction. One of the major components of this process was to gain federal approval from the FCC for the tower construction. This approval was delayed due to the government shutdown and resulted in another 2-3 month delay. On November of 2018, staff was provided a revised project schedule that indicated the project would be completed by the end of April 2019. In 2019, staff discovered that additional work would be necessary on the Kentuck (Dan River Middle School) tower in order to accommodate equipment from the County and 2 cellular companies. Design work had to be completed on these modifications. Construction of the 2 towers is currently underway and the latest completion date for the towers and the modifications to Kentuck is August of 2019. Harris cannot begin the installation of the equipment until the towers are completed and accepted. Attached for your review and consideration is a request from Harris to approve Change Order 3, which includes an acceptance date of September 23, 2019. They are also requesting a price increase of \$16,275 to cover costs of equipment storage and continued project support during the delay. They have continued to monitor the progress on the project and have had staff involved in all of the project meetings to date. Their portion of the project was originally scheduled to be completed by October 2, 2018.

**Board of Supervisors
June 18, 2019
Business Meeting**

This puts them almost a year beyond the original schedule. Harris had agreed to prior time extensions at no cost on September 25, 2018 and January 24, 2019.

Mr. Farmer asked if there were any provisions in the current contract that would warn us for additional costs and Mr. Hunt replied there were not. Mr. Blackstock asked if there is money in a contingency line item, and Mrs. Van Der Hyde stated there is capital money in building and grounds line items. Mr. Blackstock asked if Mr. Hunt feels this is necessary, and he agreed that it was. Mr. Hicks stated that the Company does have Staff time as well as storage costs that were incurred over the past year and he does not feel this is an unreasonable request.

Motion to approve Change Order 3 To Amendment No. 6 with Harris in the amount of \$16,275.00 and the extension of the acceptance date to September 23, 2019.

b. Go Virginia Robotic Grant Match Funding Commitment Confirmation (Staff Contact: Gregory L. Sides)

A request was recently received by the County from Dr. Betty Jo Foster, Interim Danville Community College (“DCC”) President, on behalf of the consortium of Pittsylvania County Schools, Danville Public Schools, Danville Community College, and the Institute for Advanced Learning and Research, to financially participate in a \$9,431,883 Grant to train Pittsylvania County School (“PCS”) students in Robotics, Automation, and Information Technology (the “Program”). This Program will create similar workforce pipelines to those of the existing Precision Machining ones. The Danville Regional Foundation (“DRF”) has approved \$5,698,993 for the Program, contingent on matching funds being secured. \$3,732,890.50 was provided from other sources, with Go Virginia Grant(s) accounting for the majority. Go Virginia declined to fund the Information Technology portion of the request, leaving a \$288,378 shortfall for PCS training laboratories. The other partners in the consortium have agreed to fund their IT Grant shortfall. For the County, the requested \$288,377.50 will be matched with \$311,447.70 in DRF funding to create high-tech IT training labs at each of the high schools and the Career and Technical Center. It is understood that the funding must be provided by June 30, 2021. This item was discussed at the Board’s earlier Work Session.

Motion to appropriate \$96,126 from unused Grant proceeds for FY 2020, and seek \$96,126 from the County’s Industrial Development Authority for FY 2021, and \$96,126 from the Pittsylvania County Schools for FY 2022.
