Pittsylvania-Danville Health District to Host a COVID-19 Vaccination Clinic in Danville

Primary Series and Booster Shots of all three COVID vaccines will also be available

DANVILLE, Va. -- The Virginia Department of Health's Pittsylvania-Danville Health District will host a COVID-19 vaccination clinic Saturday, December 4 from 9 a.m. to noon at Averett North Main Campus located at 707 Mount Cross Road.

The clinic will offer first, second, additional primary and booster doses at no cost to the public. The Moderna vaccine and the single-dose Johnson & Johnson are available for anyone 18 and older. The Pfizer COVID-19 vaccine is available for anyone 5 and older. A parent or guardian must accompany anyone under 18.

Register in advance at vase.vdh.virginia.gov/. If you have any trouble registering or need additional assistance, call 1-877-VAX-IN-VA (877-829-4682, TTY users call 7-1-1). English- and Spanish-speaking operators are available. Translation services also are available in more than 100 languages.

Appointments are highly recommended for children vaccines to reduce wait time, but walk-ins are also welcome. Those with an appointment should plan to arrive no earlier than 20 minutes prior to the appointment time.

The experience of getting a COVID-19 vaccine will be very similar to the experience of getting routine vaccines. Parents can check out [these tips](#) on talking to their child about what to expect. For more about vaccinating children and teens, parents can visit the [CDC website](#).

The booster vaccine can be obtained by individuals 18 and older at least six months from the date of their second mRNA (Pfizer-BioNTech or Moderna) COVID-19 vaccine or at least two months from the date of their Johnson & Johnson COVID-19 vaccine.

Individuals who are eligible to receive a COVID-19 booster dose may choose which vaccine product they would like to receive as a booster. For those individuals that choose a different product than their primary series, VDH urges you to consult with your doctor or healthcare provider who can assist you in making the best decision for your own situation.

If you are coming for your second, third or booster dose, please bring your vaccine card to confirm the date and type of vaccine you received in previous doses.

Learn more about the COVID-19 vaccine, its safety and answers to frequently asked questions at [VDH's website](#) and [CDC's website](#).

MEDIA NOTE:

News media access to this vaccination clinic is available **ONLY** by advance request and appointment. Access will be escorted for the purposes of limited photography and videography from a distance. These measures are necessary to ensure patient privacy and operational security.
